Resurvey of E. Bdy T. 41 N. R 64 E.

June 7th 1904

I set off 22° 46' on the declination arc and 41° 24' on the latitude arc and determined a true meridian with the solar at 7h 12m P. M. T. at the cor of 13, 18, 19 and 24 on the E. Bdy of T. 41 N. R. 64 E. This corner was almost obliterated a trace of old pits and mound and a broken and decayed stake only remaining I rebuilt this corner with a limestone 12 x 8 x 6 ins. set 8 ins. in ground and marked with 3 notches on S. and 3 on N. ridge 1 and dug 4 pits 18 x 18 x 12 ins. one in each section and 5½ ft. distant and raised a mound of earth 5 ft. base 2½ ft. high W. of cor.

From this point I retraced the entire exterior of the unsurveyed portion of T. 41 N. R. 64 E. and found that nearly all this work had been done over thirty years
