

Township 15 North Range 19 East,

General Description

The most of this township is a mass of steep rugged granite. Much of the mountains, being situated on the Eastern slope & summit of the Eastern Range of the Sierra Nevada Mountains. Portions of Sections 12, 13, 23 & 24, are good agricultural lands. The balance of the town's Eastern tier of sections is mostly dry scrub bush land.

The Western four tier of sections is timbered with Yellow Pine, Fir & a little Cedar & Sugar Pine. Near the Summit in the N. W. portion of the township. Considerable, Coulter Pine, or "Lamarckii" occurs, good for Railroad ties & telegraph poles. The best of the timber East
