

# Subdivision Lines Twp 24 N. R. 27 E.

In order to test my transit  
commenced at the cor to T. 7  
N, Ranges 27+28 E, and ran  
North on a blank line on the  
East boundary of Sec. 36,

$\gamma 16^{\circ} 35' E$

at 39.97 ch.  $\frac{1}{4}$  sec cor is  $24\frac{1}{2}$   
lks E, and at 80.03 ch. cor to  
25+36 is 2 lins west.

I therefore assume that the va-  
riations are correct, and to  
avoid any local attraction  
by which the variations might  
be different at different  
points. I commence with  
the established variation  
at the cor to Secs 35+36  
on S boundary of Township

Subdivision commenced March
